

# 1ST FESTIVAL OF INDIE PERFUMERY IN RUSSIA

## The idea

The collaboration between independent perfumers and those who loves and reviews perfumes.

## The brief

A group of perfume journalists and bloggers set the theme for the 1st Festival – Rose & Water. Each perfumer among the participants had to create one fragrance on the set theme during 6 weeks. There are both all-natural and natural plus synthetic perfumes.

## How does it work

Every Festival set includes all Rose-Water scents made by participating indie perfumers from different cities (Moscow, St-Petersburg, Krasnodar, Nizhni Novgorod, Petrozavodsk, Tomsk, Dnepropetrovsk). These perfume sets are going straight to perfume bloggers for being reviewed.

## The theme: Rose & Water

This festival is a non-commercial event organised for creative exchange between independent perfumers and all those who loves and reviews perfumery. We would love to introduce more perfume lovers to a new niche of local artisanal perfumery.

*The organizer of the Festival is Anna Zworykina, the founder of all-natural perfume brand — Anna Zworykina Perfumes.*

Anna is creating natural perfumes for more than 15 years and is spreading the word about craft perfumery among Russian speaking fragrance lovers. She has published the very first book in Russian about natural perfumery which became a guide into the world of natural fragrances for many grateful readers.
